SUPPORT THE CLINIC
The DeWit RiteCare Clinic is a 501©(3) non-profit organization supported by the Western Montana Scottish Rite Foundation in partnership with the University of Montana. Funding comes from donations, contributions, grants, and bequests. When you elect to contribute to the DeWit RiteCare Clinic you help to provide services to those in need and to train future speech-language pathologists. You are invited to assist in this worthy foundation. All donations are tax-deductible and can be made by filling out the donation form on this brochure.

About our Clinic
The DeWit RiteCare Speech, Language, and Hearing Clinic, established in 1998, is housed in the Curry Health Center on the University of Montana campus. The DeWit RiteCare Clinic is staffed by Speech, Language, and Hearing Sciences students and supervised by licensed Speech-Language Pathologists. We provide diagnostic services and therapeutic intervention in the areas of speech, language, and swallowing for people throughout the lifespan.

Our Mission
The University of Montana DeWit RiteCare Speech, Language, and Hearing Clinic is committed to providing quality speech, language, literacy, cognition, swallowing, and hearing services locally and globally to people across the lifespan. We prepare future speech-language pathologists with practical experience through exceptional hands-on training and supervision. Intervention is evidence-based and client-centered. We believe that every individual should have access to these services, regardless of financial, geographic, or physical barriers. Scholarships are supported by the Western Montana Scottish Rite Foundation, however, Masonic affiliation is not required.
