SkillBridge Summer Intensive Program

Director:
Amanda Jackson
MS CCC-SLP

SkillBridge is designed for people that are challenged by breaks in instruction, most significantly summer break.

Designed to meet the needs of people of all ages, this intensive program is built to maintain and enhance skills during the summer break.

How to Participate

Many participants will be referred to the SkillBridge program by their current speech-language pathologist or physician. People are welcome to self-refer.

To participate we will need you to help us acquire the following:
* Records from your current speech-language pathologist, current IEP or any other supporting documents
* A prescription from your doctor for medical necessity in order to bill your insurance
* A $20 non-refundable deposit to hold your spot in the program

To secure your spot in the program, please contact Heather Winters, the DeWit RiteCare office manager, at 406-243-2405.

Items to Consider

It is feasible for people to lose skills over breaks in instruction. Intensive interventions like SkillBridge support maintenance and often enhance and develop skills.

Participants will receive 18 hours of intervention in total. This model offers one-to-one instruction plus an opportunity for skill generalization each day.

Interventionists are happy to work with your current team to develop a program specific to your individualized needs.

The DeWit RiteCare is a student training facility. Students are supervised and educated by professionals and offer high-quality services.

Dates & Times

7/9/18—7/24/18
